Supplier Number: 190693  
Attention: Giacomo Vulpone – Quality Manager

Subject: Special Process On- Site Audit for HS5036 and HS18801 – Titanium Machining

Mr. Giacomo Vulpone

Collins Aerospace-HS, a division of Raytheon Technologies Corp.is pleased to inform you that your facility has been approved to perform certain manufacturing special processes in accordance with the applicable process specification based on our Collins Aerospace audit. This accreditation status is extended until your next periodic audit or Nadcap review, which are conducted on a three-year review cycle. Please note your current process approvals are listed below, see Report 70. The approvals are valid for Legacy Hamilton Sundstrand product (specifically Collins Aerospace internal SAP plant numbers 6001, 6004, 6204, 6301). Other Collins Aerospace business units' approvals are managed separately.

Please be aware that Collins - Hamilton Sundstrand continues to recognize the benefit and value of Nadcap, the aerospace industry managed accreditation program. Evidence of your current Nadcap certificate for applicable processes allows Hamilton Sundstrand to grant approval without the need for continuous on-site surveys.

As such we rely heavily on the integrity with which your system is implemented. Your effort and responsiveness to the importance of providing goods and services on schedule, at a competitive price, and compliant to our quality requirements are essential to the maintenance of your accreditation status and our combined competitive position.

Our sincere congratulations are extended to you and your personnel, and our expectations are for your continued success

Very Truly Yours,

*Salvatore Santangelo*

Salvatore Santangelo  
Senior Special Process Engineer – Global Ops.
